Important Tips

Be sure to check software compatibility with your device before downloading.

Using some type of drawing stylus will help with illustration.

Supplies & Tools

- Computer (Mac or PC)
- Tablet Computer w/ Stylus
- Internet & Email (some sites may have a sign up process)

- **Optional Tools**

Drawing Tablet with Stylus

Explore & Experiment

1. **Try** one or more of the softwares from the list or explore the web for one of your own liking!
2. **Take your time.** Start off small and work your way up to build your skills. Each software has its own unique learning curve and interface.
3. **Experiment, experiment, experiment!** When you get comfortable with your new tool, try to create a story with a beginning, middle and end. Don't forget the title and credits!
4. **If you make something cool,** upload to your social media and tag with **#urbanartsspace** and **#crafternoons**. If your young artist is working with you, also use **#artexplorations**
