### Important Tips

Be sure to check software compatibility with your device before downloading.

Video can take up a lot of hard drive space. Be sure to keep track and or use an external hard drive.

## Supplies & Tools

- Computer (Mac or PC)
- Video Capable Tablet Computer or Smart Phone (iPad, Galaxy Tab, iPhone, etc.)
- Video Capable Camera
- Internet & Email (some sites may have a sign up process)
- **Optional Tools**

Tripod, Lights, Green Screen,  
External Hard Drive

## Explore & Experiment

1. **Think about what you want to make.**  
Slideshow? PSA? Mini Documentary?  
Music Video? Pet Adventure?
2. **Try** one of the software or sites from the list or explore the web for one of your own liking. There are many resources on the web!
3. **Visit your favorite app store!** The app store for your device will have some choices for you to explore.
4. **Experiment, experiment, experiment!**  
Film some footage and practice with your new software!
5. **If you make something cool,** upload to your social media and tag with **#urbanartsspace** and **#crafternoons**. If your young artist is working with you, also use **#artexplorations**
6. Do it again and don't forget to title your work!
